HERVÉ NANFANG

Sound Engineer · Music Producer · MAO & Audio Specialist

Studio Tracking · Multitrack Mixing · Audio Restoration · Live Sound · Digital Orchestration

LOCATION: Yaoundé, Cameroon | Remote · International Collaboration

EMAIL: hervenanfang@gmail.com

PHONE/WA: +237 682 180 266 / +237 694 723 492

LINKEDIN: linkedin.com/in/herve-nanfang

PORTFOLIO: canva.link/2l6atbuzkax2k6g

01 PROFESSIONAL PROFILE

Accomplished sound engineer, music producer, and audio specialist with 15+ years of hands-on experience in tracking, multitrack mixing, acoustic calibration, vocal production, and live stage sound reinforcement.

Master of major DAW ecosystems (Cubase, Pro Tools, Logic, FL Studio, Reaper), signal routing, gain staging, dynamic control, and audio restoration. Proven track record directing studio sessions, coordinating cultural events, and delivering high-impact acoustic quality.

★ AUDIO PRODUCTION & SOUND VALUE PROPOSITION

End-to-end sound engineering excellence: combining technical mastery of acoustic signal flow with refined musical sensibilities to produce pristine recordings, balanced mixes, and flawless live acoustic reinforcement.

Multitrack Mixing | Studio Recording | Live Sound Reinforcement | Audio Restoration | DAW / MAO Systems | Signal Flow & Gain Staging

02 CORE EXPERTISE PILLARS

✦ AI & Music Data
AI audio evaluation, dataset annotation, audio classification, critical acoustic assessment, human-in-the-loop QA.

✦ Musicology & Analysis
Score & harmonic analysis, ethnomusicology, music history, rhythm/tempo taxonomy, critical listening methodology.

✦ Audio & Production
Multitrack recording, studio & live mixing, signal flow, microphone techniques, DAW engineering, acoustic quality.

✦ Education & MAO
Curriculum architecture (RMA), higher-ed lecturing (ESAS), computer-assisted music (MAO), competency-based training.

03 CORE COMPETENCIES & TECHNICAL DOMAINS

A. Artificial Intelligence & Digital Workflows
AI audio evaluation, audio classification, prompt-to-audio fidelity assessment, dataset curation & annotation, taxonomy structuring, digital workflow integration.

B. Musicology & Musical Analysis
Score & harmonic analysis, ethnomusicology, music history, rhythm/tempo/meter identification, acoustic timbre assessment, musical heritage documentation.

C. Audio Engineering & Sound Production
Multitrack recording, studio & live mixing, microphone techniques, gain staging & signal flow, audio editing, critical acoustic listening & quality QA.

D. Music Technology & MAO
DAW environments (Cubase, Pro Tools, Logic, FL Studio, Reaper), MIDI programming, synthesis, audio processing plug-ins, digital orchestration, hardware integration.

E. Education & Curriculum Development
Curriculum architecture (RMA), competency-based training, pedagogical engineering, ear training systems, course material design, higher-ed lecturing (ESAS).

F. Creative Production & Cultural Projects
Artistic direction & coordination (A LAIZ PROD), stage performance & piano-bar delivery, musical arrangement, event programming, cross-cultural initiatives.

04 PROFESSIONAL EXPERIENCE (PART I)

Lecturer in Musicology, MAO & Music Education
2022 — PRESENT

ESAS — École Supérieure des Arts du Spectacle

- Delivers higher education lectures in musicology, computer-assisted music (MAO), and music applied to visual media.
- Designs syllabi and pedagogical engineering frameworks bridging classical music analysis, ear training, and modern DAW workflows.
- Supervises student audio productions, orchestration assignments, and digital composition portfolios.

Curriculum Architect & Music Education Lead
ONGOING

Racines Musicales Academy® — RMA

- Architected the complete Music Education System, structuring sequential curricula for ear training, theory, and practical mastery.
- Designed progressive pedagogical materials converting complex musicological concepts into competency-based learning modules.
- Implemented standardized evaluation rubrics for auditory perception, instrumental fluency, and stylistic versatility.

Sound Engineer & Audio Production Specialist
PROFESSIONAL PRACTICE

Sound Engineering · Audio Production Practice

- Leads studio tracking, multitrack mixing, audio restoration, vocal editing, and live acoustic reinforcement across diverse genres.
- Applies critical listening and acoustic QA to detect sonic artifacts, phase issues, balance anomalies, and spectral imbalances.
- Masters full DAW/MAO workflows, hardware signal routing, microphone placement techniques, and monitoring calibration.

04 PROFESSIONAL EXPERIENCE (PART II)

Independent Music Producer & Artistic / Cultural Project Coordinator — ONGOING
A LAIZ PROD
- Coordinates end-to-end music production, artistic direction, studio recording sessions, and creative development projects.
- Directs cultural event programming, cross-disciplinary collaborations, and sound design for visual media.

Higher Education & Professional Training Contributor — Music & Arts — BENIN
ISMA — Institut Supérieur des Métiers des Arts
- Contributed to academic and professional training modules in musicology, stage performance, and artistic project coordination.
- Conducted masterclasses on musical interpretation, sound quality standards, and creative industry workflows.

Professional Musician · Piano-Bar Performer · Composer & Arranger — 2007 — PRESENT
Independent / Live Performance
- 17+ years of continuous live and piano-bar performance with simultaneous vocal interpretation and keyboard mastery.
- Broad international repertoire: jazz, blues, African varieties, French chanson, international pop standards, and Oriental pieces.
- Honed supreme critical listening, tempo stability, dynamic adaptability, and rapid harmonic analysis under live conditions.

05 ADDITIONAL MANAGEMENT & CULTURAL CONSULTING EXPERIENCE

Goethe-Institut Yaoundé
Cultural Consulting & Project Support
Provided consulting for bilateral cultural initiatives, artistic curation support, and workshop facilitation.

Ampaya Holding · Cotonou
Event Management & Coordination
Managed logistics, live event production, stage coordination, and technical team supervision for major corporate events.

Restaurant Clé · Cotonou
Management & Operational Coordination
Directed hospitality operations, musical programming, sound environment calibration, and operational staffing.

06 EDUCATION & QUALIFICATIONS

MASTER II — Musicology Applied to Visual Media
Specialization: Computer-Assisted Music / MAO
Advanced music analysis, film scoring, digital composition & intermediality

HIGHER TECHNICIAN DIPLOMA — Sound Engineering
Technician-Level Higher Education in Sound Engineering
Studio acoustics, signal processing, microphone techniques & multitrack mixing

LICENCE (BACHELOR'S DEGREE) — Arts & Cultural Management
University of Dschang
Cultural economics, project management, arts administration & heritage conservation

MILLENNIUM BUSINESS DEVELOPER
UVCDI
Business strategy, project scaling, commercial development & executive leadership

07 AI APPLICATIONS, AUDIO EVALUATION & MUSIC DATA PROFILE

SPECIALIZED PROFILE: AI AUDIO EVALUATION, TAXONOMY & MUSIC DATA

✦ Established AI & Digital Workflow Practice
Routine implementation of modern digital audio workflows, AI-assisted audio processing tools, automated stem separation, and audio restoration plugins within professional DAW environments.

✦ AI Audio Evaluation & Annotation Capabilities
High-fidelity acoustic critique for generative audio models: identifying spectral artifacts, phase smearing, harmonic incoherence, tempo drift, prompt alignment, and genre classification with musicological precision.

✦ Target International Roles & Missions
AI Audio Quality Evaluator · Music Data Annotator / Curator · Audio QA Specialist · Human-in-the-Loop Audio QA Evaluator · MusicTech Educational Consultant.

✦ Transferable Professional Strengths
Rare triad combining rigorous academic musicology, practical sound engineering ear, and pedagogical taxonomy design (RMA), ensuring objective, structured, and repeatable audio evaluation data.

08 LANGUAGES & INTERNATIONAL AVAILABILITY

LANGUAGES
French: Native / Full Professional Fluency
English: Professional Working Proficiency

INTERNATIONAL MOBILITY & COLLABORATION
Remote: Equipped for international asynchronous & real-time audio evaluation workflows.
On-site: Available for international travel: masterclasses, festivals, studio mixing, and consulting.
